

Unit 1

KG

The first session, students started to draw their family and themselves, as the teacher wanted to find out how their drawing skills were.

The second session was about working on cut and paste skill.

The next activity was learning collage skills, so that they used waste colorful papers to collage a flower.

Shapes are the basis of artworks, so getting to know them is really important. In this session, we talked about simple shapes and the students made animals and objects out of different shapes, using colorful papers.

The next session the students started to get to know how to work with colors, as this is a difficult task for kids. They used forks to draw a garden.

The last session was about creativity. The students used paper plates to make a chick coming out of the egg.

Grade 1: Who We Are

At the beginning of the new school year, the students chose their best day they had in summer and started to draw the day.

The students talked about different shapes and the importance of them in basis of art learning. Then, avoiding using ruler, they started to practice how to draw shapes without using a ruler. They also learnt how to color in one direction and leaving no white spots.

The next session they started to create new art works using the shapes we talked about the session before.

Here, the students started to sketch for happiness day. They illustrated "what makes me happy".

Another interesting activity was talking about different sports and illustrating the favorite sports.

Grade2: Who We Are

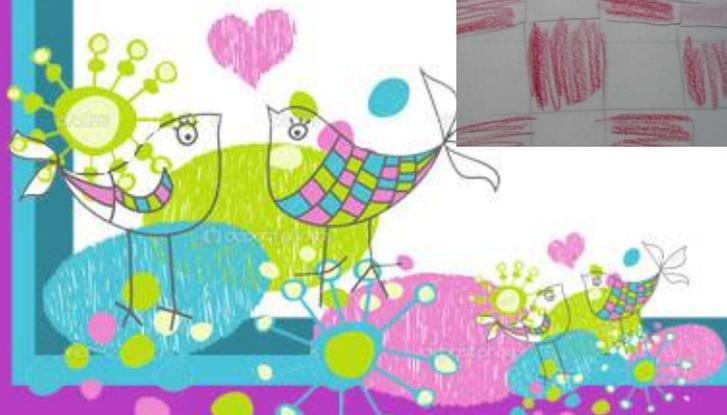

At the beginning of the new school year, the students chose their best day they had in summer and started to draw the day.

The second activity was integrating their own portraits with flower.

Here, the students started to sketch for happiness day. They illustrated "what makes me happy".

The next, they got to know cool and warm colors and drew imaginary butterfly and flowers using these colors.

Next activity was about junk and healthy foods and their positive and negative influences on body. The students illustrated what they talked about.

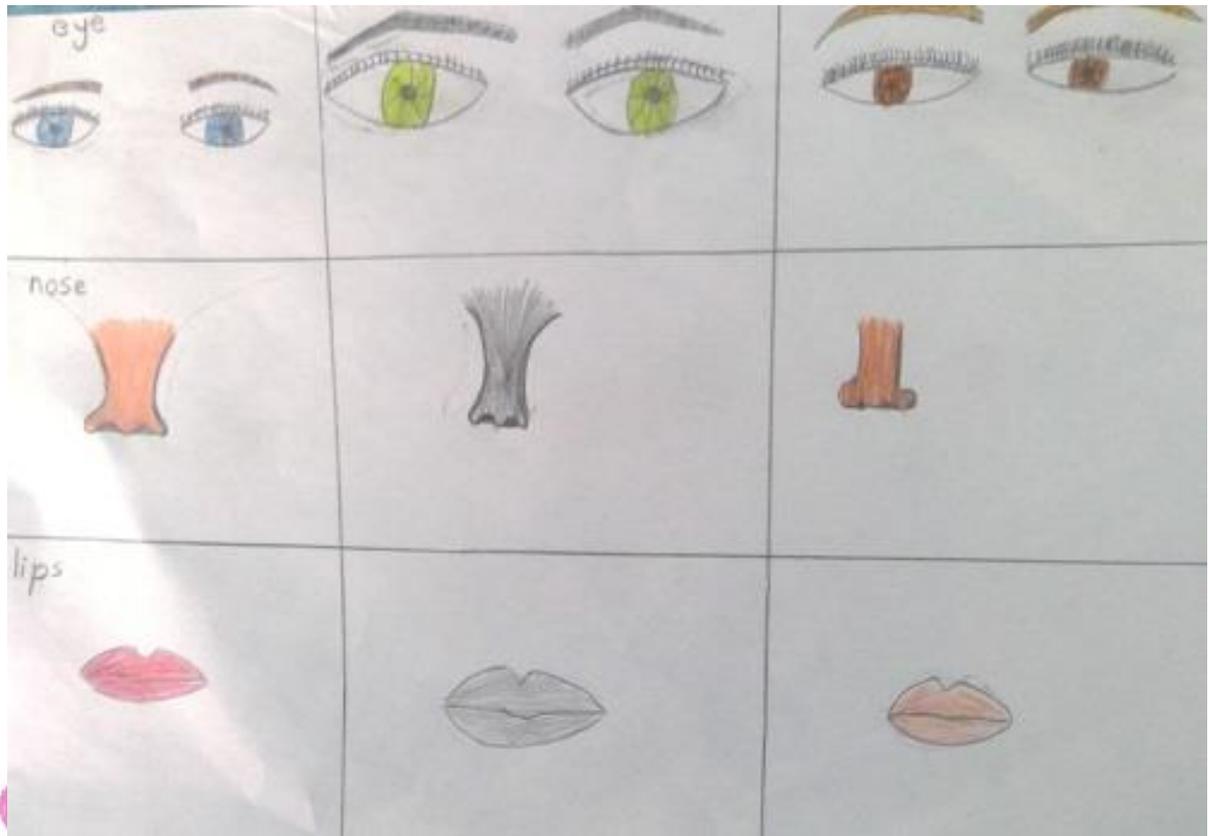

Garde3: Who We Are

At the beginning of the new school year, the students chose their best day they had in summer and started to draw the day.

The most exciting session was learning about the details of the human face. The students started to draw their own portraits based on basic rules.

Here, the students started to sketch for happiness day. They illustrated “what makes me happy”.

The last activity was illustrating different nations and their national foods.

At the beginning of the new school year, the students chose their best day they had in summer and started to draw the day.

The next subject was galaxy. The students talked about galaxy and saw some samples, then they started to draw their own artworks.

Third session was about a very important art school called "surrealism". The students saw some examples and started to create their own master pieces.

Here, the students started to sketch for happiness day. They illustrated "what makes me happy".

And, the last activity of this unit was "pointillism" that you can see some examples below.

The last session was about "Halloween".

Grade5: Who We Are

At the beginning of the new school year, the students chose their best day they had in summer and started to draw the day.

The next activity was illustrating imaginary trees.
