

Unit of inquiry:
Sharing the planet

Ms. Saleh's Classroom Newsletter

Dear parents,
Here is a summary of what we have been doing during the last 6 weeks.

UOI:

Our central idea:

Humans share the planet with other living things.

The students took a deeper look in the world around them and the living things that share planet Earth with them.

We learned about different animal habitats:

- Farm
- Jungle
- Artic
- Dessert
- Sea

We also talked about the resources that we share such as water, food and oxygen.

In addition we learned about recycling and how it helps our environment.

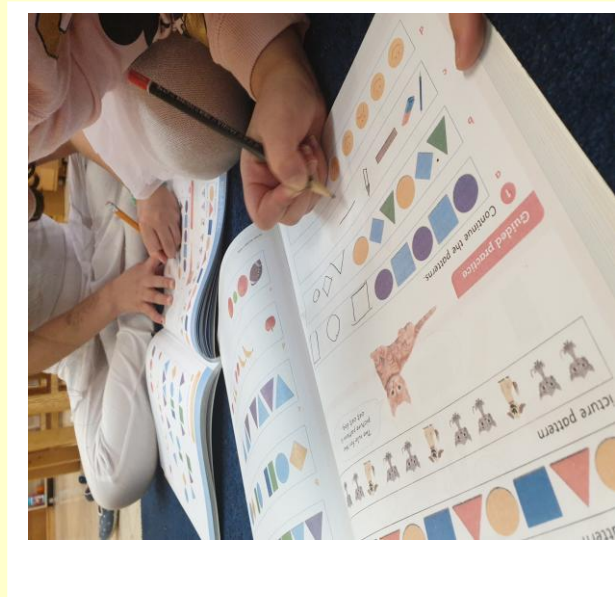

Math:

We have been working very hard in our math books on the following:

We have been focusing on patterns!

The students can make and distinguish between AB, ABC, ABB etc. patterns.

LA:

We have finished all our letters!

The students have started to blend and read 3 and 4 letter words.

Some of the students have also started reading short sentences.

During this UOI, we have also started to write our answers and do more writing practice in our notebooks.

Here are some other fun things we did!

We enjoyed learning all these new things and we are excited to start our new unit of inquiry:

Where we are in place and time

We will keep you updated soon!

Thanks for your attention.

Teacher Zahraa and Teacher Haniyeh

Thank You Students!
