

Dear Parents,

Thank you for your participation and involvement with Shahid Mahdavi International School. We have enjoyed having you and your children with us during this wonderful school year. We have covered a lot of material and participated in many fun and exciting projects. We started to develop skills needed for the third grade. We were unfortunate to spend three months at home and study online on the other hand, but we made many new friends along the way.

We have completed Unit Six 'How we express ourselves'.

Central idea: People communicate through culture and art.

Lines of inquiry:

1. The role of art in the society.
2. Different ways in which people express themselves.
3. How to express our feelings through art.

In this unit students learned how to talk or express their feelings and emotions through different arts. They talked about their feelings. They watched some videos and pictures. They learnt about different music and instruments.

In Language Arts, We reviewed all the parts, they have learned throughout the year. Students were able to write paragraphed letters with the correct use of punctuation.

In Math, We covered division and multiplication and reviewed all the work we had throughout the year.

It was an amazing year with beautiful students. Each of your children has brought such joy and happiness to our classroom. I was so fortunate to have such a wonderful group of children this past year. My friends and family often laugh at me when I refer to your children as "my kids". They are like my own children. They all have touched my life and this school year, in very positive and rewarding ways. I hope as the years go by that they keep in

touch. Today's technology can help us continue the relationships we have built.
