

Fieldtrip Report - May 2019

Persian Garden

We went on a picnic with grade 4 in the Persian Garden and the students had the opportunity to enjoy the nature and the colorful tulips of the garden. They also practiced sharing with their classmates.

The Observatory

We also had a visit to the observatory and the students got to learn about the solar system and its planets. They also had the chance of looking at the sun through telescope and they were truly amazed by its beauty.
